

Impressions Fashion Boutique

Christian Lowery

Name: Impressions Fashion

Description: I'll be making a storefront for my mom's business, Impressions Fashion Boutique.

The business is a mobile boutique we take to different festivals and events around South Carolina, North Carolina and Georgia. We don't have a set physical location so there aren't many opportunities to sell outside of events. There is an option for online ordering through Facebook Marketplace and similar avenues but I believe having its own site would make it much easier to navigate. I want to create an online storefront where we have all of our products posted and we allow people to order from there.
